This report supersedes any previous revision with this reference. This document must not be reproduced, except in full. If samples were provided by the customer, results apply only to the samples 'as received' and responsibility for representative sampling rests with the customer. Results are reported on as 'as is' basis unless otherwise indicated in the 'Report Comments' section. Measurement Uncertainty is available upon request. If the laboratory was authorised to conduct testing on samples received outside of the specified conditions, all test results may be impacted. Details of samples received outside of the specified conditions are mentioned in the sample description section of this test report.

### Analysis Location

All in-house analysis was completed by Symbio Laboratories - Brisbane.

### Report Comments

For allergen testing ND = 'Not Detected' at a concentration exceeding the LOR.

Swab results represent the amount of the target analyte retained on the swab. It is the customers responsibility to interpret reported values taking into consideration the item or surface area swabbed.

Further information regarding the brand of ELISA kit/s used is available upon request.
